

A STRATEGIC PARTNERSHIP PROPOSAL FOR

Structure Properties

PREPARED BY

Backnine Trades

DATE

May 2026

STATUS

Confidential — for discussion

WHY WE'RE HERE

You don't need another vendor. You need an operating partner who thinks like an owner.

Structure Properties has built a sixteen-year track record managing San Francisco multifamily — properties protected, owners served, residents kept happy. You already run a vetted maintenance network. We're not here to be one more name on it.

We're here to propose something different: a single accountable shop, run by people who've operated buildings of their own, who would treat your portfolio like the buildings on their own balance sheet.

Owner-operator DNA. Full-stack coverage.

Founded by veteran SF multifamily executives. Built our craft running our own buildings — independent shop, no institutional ownership ties.

13.5K+

WOs / year of operating depth

18+

field technicians & supervisors

14

trade categories in-house

24/7

live emergency dispatch · bilingual

General Maintenance & Work Orders

Plumbing · electrical · appliances · carpentry · painting · locks · access · pest · fire/safety.

24/7 After-Hours & Emergency

Live dispatch nights, weekends, holidays. <60 min target for life-safety.

Unit Turnover Program

Move-out to make-ready in days. Flat-rate, photo-documented, QC-walked.

Recurring & Packaged Services

Janitorial, preventive pest, landscaping, planned-maintenance memberships.

Backnine Trades × Structure Properties

03 / 10

Where a vetted contractor network leaves gaps.

TYPICAL VENDOR NETWORK		OPERATING PARTNER
Multiple vendors, invoices, coordinators	→	One vendor, one invoice, one named AM
Transactional pricing	→	Committed rates, committed capacity
Voicemail or call center after hours	→	Live 24/7 dispatch
Photo documentation on request	→	Photo doc every WO, before/after
English-only field crews	→	Bilingual dispatch & field
Variable depth on licensed trades	→	Licensed CA contractors in-house
Vendor-mindset — bill & move on	→	Owner-mindset — fix once, fix right

WHAT PARTNERSHIP MEANS

- ✓ **Dedicated capacity** — named techs, named dispatcher
- ✓ **Preferred rates** — partner tier, locked Years 1–2
- ✓ **Quarterly reviews** — same data, same room
- ✓ **Transparent reporting** — live WO feed, cost/unit, SLA, NPS
- ✓ **Shared planning** — capital plan, turn forecasting
- ✓ **Three-year term** — mutual termination rights

Zero-tech start. Full visibility from Day 1.

Live in AppFolio's vendor portal Day 1. Every WO mirrored to a dashboard Structure ops can open from any browser.

INTEGRATION PATH · START LIGHT, SCALE UP

DAY 1
Vendor Portal
Zero code · hours

YEAR 1
Stack Bridge
Property Meld / Latchel

YEAR 2
Direct API
At 300+ WO/mo

REPORTING CADENCE

Real-time dashboard · **Daily** CSV · **Weekly** SLA report · **Monthly** cost report · Quarterly business review

Residents see Structure. Always.

Backnine is invisible to your residents. White-label messaging on every touchpoint, bilingual by default.

SAMPLE SMS · ACKNOWLEDGMENT

Hi Maria, we received your maintenance request about the kitchen sink at Unit 3B. Our team will text you within 4 hours to schedule. Reply HELP if it's an emergency. — **Structure Properties Maintenance**

Hola María, recibimos su solicitud sobre el fregadero en la Unidad 3B. Nuestro equipo le enviará un mensaje en 4 horas para programar. — **Mantenimiento Structure Properties**

BRANDING DEFAULT: WHITE-LABEL

- ✓ Tech badges & uniforms branded **Structure Properties**
- ✓ Business cards & phone line show **Structure**
- ✓ Tech introduces as “*I'm with Structure's maintenance team*”
- ✓ Co-branded option available if preferred

Below market across the board.

Tiered by trade. Tied to commitments that justify the discount.

GENERAL MAINTENANCE

\$88/hr

vs. \$120 standard. **-27%**

LICENSED TRADES (E/HVAC)

\$187/hr

vs. \$225 standard. **-17%**

UNIT TURN (1BR FLAT)

\$2,200

vs. \$2,800 standard. **-21%**

Blended effective rate

\$103 / hr

~22% below Backnine's published \$131/hr blended rate

Simple, transparent pricing

No back-end rebates — volume discount baked into headline rates. Materials marked up at **10%** (vs. 15% standard); pass-through above \$500.

Rebate structure available upon request if preferred.

One commitment. That's all we need.

A volume target is the only condition tied to the partner rate.

Unit-count target

350+ units under active service by Month 6, sustained thereafter. At industry benchmark (0.4–0.55 WOs / unit / month), that's ~140–190 WO/mo — enough to justify dedicated techs and a named dispatcher.

Unit count is the durable metric. WO volume tracks property condition; the unit number doesn't move. If unit count runs below target for two consecutive quarters, rates revert to our Owner Rate tier on 30-day notice. No penalty, no claw-back.

Three-year term

Mutual 90-day termination rights after Month 12. Long enough for us to invest in the relationship; short enough to keep us honest.

No exclusivity required. No right-of-first-refusal. You're free to use other vendors anytime — the partner rate is a function of the volume you actually send.

Plus, quarterly business reviews. Same data, same room. Performance, spend, planning. If the partnership isn't working, we'll know in 90 days, not 9 months.

Ninety days. ~125 units. One cluster.

An initial slug of roughly 125 units across 5–7 properties — sized to focus on what actually matters in Year 1: integration, workflow, communication, billing.

PILOT FOCUS AREAS

- ✓ **Team integration** — Backnine techs & dispatchers working alongside Structure ops
- ✓ **Deployment workflow** — intake routing, scheduling, escalation paths
- ✓ **Resident-facing communication** — how WO updates reach residents, in whose voice
- ✓ **Billing integration** — invoice cadence, GL coding, cost-center accuracy

MEASURED AGAINST

- ✓ **Response time** — < 60 min life-safety, < 24 hrs routine
- ✓ **Completion rate** — first-visit close ≥ 75%
- ✓ **Cost vs. baseline** — vs. Structure's current spend on same work
- ✓ **Resident NPS** — post-WO survey, target ≥ +40
- ✓ **Billing accuracy** — clean invoices, no disputes, < 5-day close

If the pilot misses targets, no obligation to extend. We take the risk on proving the model.

Thirty days to a live pilot.

Clear next steps. Two named points of contact on each side.

1 Week 1 — Discovery & NDA

Mutual NDA executed. Structure shares anonymized WO data for the past 12 months. We share insurance binder, references, and detailed rate sheet.

2 Week 2 — Pilot scope

Select 3–5 properties. Lock down baseline cost & performance data. Draft pilot agreement.

3 Week 3 — Onboarding

Tech walkthroughs at pilot properties. Intake setup (Yardi/AppFolio/etc.). Named dispatcher introduced. First quarterly review date set.

4 Week 4 — Kickoff

First work orders dispatched. Weekly check-ins begin. 30/60/90-day milestone reviews on calendar.
